Objective

Eager to apply my growing knowledge in software development to real-world projects, while continuously learning and exploring opportunities in software engineering, AI, or cybersecurity.

Education

Lakshmi Narain College of Technology <i>Bachelor of Science in Computer Science - CSE (2023 - 2026)</i>	Current CGPA 8.03 CGPA
Deepmala Pagarani Sanskar Public School <i>Class 12 (2022)</i>	Percentage 85.8%.
Deepmala Pagarani Sanskar Public School <i>Class 10 (2020)</i>	Percentage 90.33%.

Projects

Weather Web App | HTML, CSS, JavaScript, API's

- Built a responsive weather web app using HTML, CSS, and JavaScript, enabling users to view real-time weather information for any entered city.
- Integrated weather and location-based APIs to display accurate weather data alongside dynamic background visuals tailored to the entered city.
- Demonstrated expertise in frontend development, API integration, and user-centric design to deliver a seamless and interactive application.

Trendy Movies Web App | HTML, CSS, JavaScript, API's, Firebase

- Developed a trendy movies web app using HTML, CSS3, and JavaScript, displaying the most popular movies in real-time by integrating a movie database API.
- Implemented functionality for users to add their favorite movies to a personalized favorites list, enhancing user engagement and interactivity.

AutoXcel (ongoing) | React.js, Next.js, Firebase, Tailwind, MongoDB, Gemini, API's

- Developed an Excel automation tool, AutoXcel, enabling data retrieval based on user-defined criteria and generating copies of filtered Excel files for streamlined workflows.
- Integrated email automation to send processed Excel files directly to recipients, enhancing efficiency and reducing manual intervention.
- Demonstrated proficiency in scripting and automation to solve real-world problems, focusing on data handling and communication optimization.

Technical Skills

Languages: C, Java, JavaScript, HTML, CSS

Technologies: React.js, Express.js, Node.js, Bootstrap, Tailwind, Firebase

Concepts: Operating System, Object-Oriented Programming, Database Management System

Certifications

- Web Development Bootcamp
- Java Masterclass
- Programming with Java
- Database Management System part-1
